## Artificial Intelligence Intern - Relocation to the USA with J-1 Sponsorship

[Apply Now](#)

Company: Work Visa USA Jobs (move2usajobs.com LLC)

Location: Tropicana

Category: other-general

Description: Dive into the forefront of technological innovation with our J-1 Governmental Sponsor Program, providing unique internship opportunities across the United States for aspiring artificial intelligence (AI) specialists. As an Artificial Intelligence Intern, you will be part of pioneering projects involving machine learning, natural language processing, computer vision, and more. This role offers an extraordinary opportunity to apply your theoretical knowledge in AI to solve real-world problems, develop intelligent systems, and contribute to advancements that could shape the future. Under the mentorship of leading AI professionals, you will enhance your skills in algorithm development, data analysis, and AI application design in various industries. To Qualify: Ideal candidates are current students pursuing or recent graduates of a Bachelor's degree in Computer Science, Artificial Intelligence, Data Science, or related fields with a focus on AI technologies. English proficiency at a B1 level or higher is essential for effective communication within our diverse, innovative team environments. No formal language examination is needed. This program is designed for those deeply passionate about artificial intelligence and seeking to immerse themselves in AI development and application on an international scale. Starting Salary: Interns can expect a competitive starting salary from \$2,000 to \$4,000 monthly. For those who demonstrate exceptional abilities and make substantial contributions to their projects, there is a potential to increase their salary up to \$9,500. Be advised that visa processing fees will apply for the J-1 Sponsorship, a crucial step for ensuring your legal entry and residency in the USA during the internship. This sponsorship is key to offering you a hands-on experience in the AI field, allowing you to develop professionally and personally. The Artificial

Intelligence Intern position is an incredible opportunity to work at the cutting edge of technology, develop your expertise in AI, and contribute to innovations that have the potential to revolutionize industries. Join us to unlock your potential, expand your professional network, and take significant steps forward in your AI career.
